

What have we been learning?

Week beginning: 26th February 2024

This week we have been reading 'Handa's Surprise'. We have been learning to write sentences about the different fruits in the story—bananas, oranges, passion fruits, avocados, mangos, pineapples and guavas.

I can see a soft yellow banana.

I can see a spiky pineapple.

Our topic for this half term is growing. We have been learning to know what it means to grow. We know that if something is living, it will grow. We looked at pictures of living things that will grow and change over time. We learned about seeds growing into sunflowers, chicks growing into hens, kittens growing into cats and babies growing into toddlers.

How can you help your child with their learning?

- Speak to your child about growing—what can they see outside? What are the signs of Spring coming? E.g. new flowers, leaves on trees.
- Encourage your child to think about being kind, compassionate, helpful, and caring just like Jesus was.
