

What have we been learning?

Week beginning: 19th February 2024

This week we have been learning how to look after our wonderful world. We learned that God created the world in 7 days, which is why there are 7 days in a week. We went on a walk to spot all of the natural things in our world that God made. We also learned about putting our rubbish in the bin and that it is then collected and put into a landfill. We also learned all about recycling and used some recycling to make our junk model robots. Thank you for bringing your recycling in to help us have lots of choice when making our robots.

On Monday Miss Monaghan came to visit us with her beautiful baby Luca. We asked her lots of questions and some of us helped her feed him :)

How can you help your child with their learning?

- Our next topic is growing. Speak to your child about growing—what can they see outside? What are the signs of Spring coming? E.g. new flowers, leaves on trees.
- Speak to your child about how can they grow to be more like Jesus for Lent. Encourage your child to think about being kind, compassionate, helpful, and caring just like Jesus was.
