

What have we been learning?

Week beginning: 29th January 2024

We had a lovely time at the London Aquarium on Wednesday :) here are some of our pictures. We saw sharks, turtles, crocodiles, penguins, jellyfish and many different species of fish! Thank you to the parents who supported on this trip.

How can you help your child with their learning?

- Please ensure that your child **brings their PE kit to school** on Mondays. Reception children should not be coming to school in their PE kit, as it is part of our early years curriculum for children to learn how to get changed into their PE kit, This helps the children to become more independent, as they are learning how to manage their own basic needs such as going to the toilet independently, getting changed independently, or knowing how to make healthy food choices. Thank you for your help with this.
