

# What have we been learning?

Week beginning: 19th May 2025

On Wednesday we attended mass to celebrate the feast of St Eugene. We learned about the patron Saint of our school, and enjoyed singing the hymns with everyone :) We had an

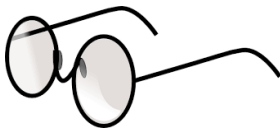

We have been learning to write sentences. We have been trying extra hard to make sure that we are sounding out our words using our phonics, forming our letters correctly, using finger spaces, capital letters and full stops. We are also making sure to remember that we say our sentence first, then we write our sentence, then we read it back to make sure it makes sense.

**Say it**

**Write it**

**Read it back**

Fred is in a hat.

Did I use capital letters,  
finger spaces and full  
stops?  
Does my sentence  
make sense?

## How can you help your child with their learning?

- Use the images of Fred the frog overleaf to give to your child to write some sentences over the half term. They have been put together to make it simple for your child to sound the words out. Encourage your child to sound these words out by themselves. Ask your child to bring their work to school to show the class :)
- Keep practising the first 45 High Frequency Words (attached overleaf). These are words your child should know by sight. Please let me know if your child knows them all, as they will get a special certificate in assembly :)

## Reception first 45 High Frequency Words
