

What have we been learning?

Week beginning: 24th March 2025

We have been learning about vegetables this week. On Tuesday we made our own salads. We have learned that a vegetable is the part of a plant that we can eat. We had a choice of lettuce, carrots, tomatoes, cucumbers, mushrooms, peppers, and red cabbage. Lots of us tried things that we hadn't tried before!

In RE this week we began to learn about Good Friday. We learned that Jesus died on Good Friday. During his life some people became jealous of Jesus. They planned to get rid of him. Jesus knew that whatever happened, God his Father loved him. Jesus asked God to forgive them. Jesus died because he loves all of us.

How can you help your child with their learning?

- Speak to your child about vegetables—which vegetables did they learn about at school? Which one did they like best and why? What did they taste like? Crunchy, sweet, juicy?
