

# What have we been learning?

Week beginning: 12th January 2026

As part of our 'Underwater' topic, we have been reading 'The Coral Kingdom'. We have been busy writing labels and sentences about all of the different sea creatures we have been learning about. We have been learning to use finger spaces to make sure our writing is easy to read. We are also making sure to use our phonics to sound out the word we want to write.

In maths this week, we have been learning about 1 more and 1 less. We have been singing nursery rhymes such as 'Crocodile Splash' and 'Five Little Monkeys' to help us to learn about 1 more and 1 less.

Two crocodiles went out to play, upon the riverbank one day.  
The crocs had such enormous fun that they snapped for another crocodile to come!

## How can you help your child with their learning?

- Next week in maths we are learning about capacity. Help your child use the words full, empty, nearly full and nearly empty. Speak about how full or empty your glasses of water/squash are at home, you could also have a teddy bear's picnic and speak about all the different glasses and how much each teddy has drank.
