

# What have we been learning?

Week beginning: 8th June 2026

Laat week we were learning how to look after our wonderful world. We learned that God created the world in 6 days in the story of Genesis, and rested on the seventh day. This is why there are 7 days in a week. We went on a walk around the playground to spot all of the natural things in our world that God made. We also learned about rubbish and recycling. We used some recycling to make our junk model art. Thank you for bringing your recycling in to help us have lots of choices when making our art :).

## How can you help your child with their learning?

- Please help your child with their letter and number formation homework. It is important that they start at the top of the letter, their letters are neat, facing the right way, and sitting in the right place on the line.
- Ask your child to write a sentence using the new additional High Frequency Words in their homework. This will help them to remember the word in context.
- Our new topic is journeys and transport. Talk to your child about different types of journeys and transport. Discuss long journeys, which may need a train or bus, or a short journey, which you could walk or cycle to. Talk about past journeys and experiences that you have had together.
