

What have we been learning?

Week beginning: 24th June 2024

As part of our topic 'Journeys and Transport' we have been learning about ways to travel: by land, water, or air. This week our book of the week was 'How Will We Get to the Beach?' Which is a problem solving book teaching us about different modes of transport. We enjoyed playing in the beach area as part of our learning :)

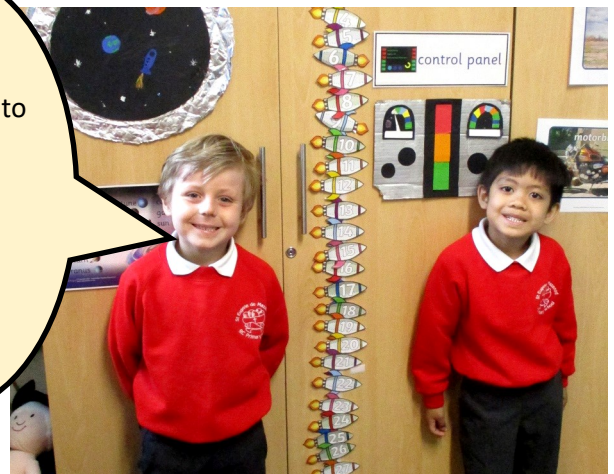

In RE we have been learning about friends. We have been learning about what it looks like to be a good friend e.g. sharing, being kind, giving our friends compliments. We have also discussed how Jesus was a good friend.

Attia is a good friend to me because he always listens to me when I am talking.

Ylijah is a good friend to me because he helps me to solve maths problems.

How can you help your child with their learning?

- This week in maths we have been learning about odd and even numbers. Help your child to recognise odd and even numbers. You could help them sort their teddies/toys into pairs. Does everyone have a partner?
- Speak to your child about how they can be a good friend. Ask your child who is a good friend to them, and discuss why. By being a good friend, they are showing our school value of friendship. **Friendship** - This means mutual trust and support. "Dear children, let us not love with words or speech but with actions and in truth." (1 John 3:18)
