

# What have we been learning?

Week beginning: 17th June 2024

We had lots of fun at our first Sports Day. All of the children took part in the events brilliantly, won lots of stickers, and had a great time! Thank you to all of the parents that came to support :)

This week in maths we have been learning how to find the double of a number. A double means twice as many. We have been making sure that the same amount of dots are on both sides of the butterfly's wings to make sure that it was double.

$$4 + 4 = 8$$

Double 4 is 8.

## How can you help your child with their learning?

- Please help your child with their letter formation homework. It is important that they start at the top of the letter, their letters are neat, facing the right way, and sitting in the right place on the line.
- Ask your child to write a sentence using the words in the 'Look Write Cover Check' part of their homework.
